L

A vertical strip of 15 small, square images showing various stages of a plant's growth, from a seedling to a mature plant. The images are arranged in a single column, with each square containing a different view or stage of the plant. The plants are shown in various colors, including green, yellow, and brown, and are set against a white background. The images are arranged in a way that shows the progression of the plant's growth over time.
